Tommy Svensson CV

Born in 1968 in Stockholm. Involved in the IT industry since 1990. Has development, architecture and technology direction.

Is a happy, friendly and humorous person with a keen interest in IT / technology.

Started his professional career in 1990, but his interest in computers and programming extends much further back than that.

Have worked as a software developer for almost his entire professional life. Is a structured person with a deep and broad experience in systems on Unix, Linux, Windows platforms. Experience in system-development include general application programming, graphical user interfaces (including components), and largely client / server programming (TCP / IP, RPC, web services, REST, etc.). He is often a problem-solver in projects due to his technical expertise.

Have since 1998 been working almost exclusively with Java and have a good handle on most open-source frameworks for Java. Has also made some small open-source projects himself.

Has experience in architecture and often work with architectural coding and design.

Has been to the JavaOne conference in San Francisco three times, 2000, 2001 and 2009, and JBoss World in Boston 2012.

Thrives when he get to work with complex and challenging projects. Prefer to work in teams, but can also work independently when required.

Lived and studied in the U.S. for 7.5 years.
